Try It

Book Talk

Read a short read-aloud book and think about how you will use it in a book talk with children.

1. What concepts do you want children to learn from the book experience?

2. What words will you define or ask children to define?

3. What open-ended questions will you ask while reading aloud?

4. How will you build on children's own experiences to help them enjoy and relate to the text?

Produced by WGBH for the Massachusetts Department of Early Education and Care with federal funds from The Race to the Top – Early Learning Challenge Grant.
