Unit 7: Watch It Grow Week 2: Watch Them Grow

Date _____

Dear Families,

This week children will continue exploring seeds and bulbs and learning about how plants grow. They will listen to the read-aloud books *Jack's Garden* by Henry Cole and *Flower Garden* by Eve Bunting, and they will learn more about different flowers and plants. Children will measure the seeds and bulbs they planted last week and record any changes in their science notebooks. They will watch *PEEP and the Big Wide World* "Peep Plants a Seed." This week children will review the letter "Gg," the letter sound /g/, and the word *garden*.

Here are some things you can do at home with your child:

- Take time outside to look at plants with your child. Help your child look for big plants, like trees and bushes, as well as small plants growing in gardens and from cracks in the sidewalk.
- Invite your child to collect leaves, twigs, seeds, and other things to look at more closely at home.

Thank you!
